

Success Story

Bringing Hope to Al-Qawz Al-Rumaila Camp – Marib

In Al-Qawz Al-Rumaila camp for displaced people, water was a major challenge for residents. Since Ali Sharqi and his family arrived at the camp at the end of 2017, he had to send his children to fetch water from far away, exposing them to the dangers of the road.

CARE, in cooperation with the Coalition of Relief and Building (CRB), launched a project to drill a well in the camp, then installed an integrated tank with water distributed to points inside the camp—transforming residents' lives.

> **"Before the project, we had to walk long distances to fetch water, and the water we got was unclean and made us very sick."**

> **"Thanks to the project, we now have a clean water network that reaches our homes directly. We also benefited from hygiene awareness campaigns that taught us how to keep water clean and avoid disease."**
>
> — Ali Sharqi, Al-Qawz Al-Rumaila Camp – Marib

10-Year Harvest

Coordination & Partnerships

We work within the humanitarian coordination system for water, sanitation and hygiene, in partnership with local, regional and international donors and organizations.

OCHA Clusters — **UN OCHA and the Humanitarian Clusters**
Active participation in clusters and technical committees

YHF — **Yemen Humanitarian Fund**
Official implementing partner of the YHF

Key Partners of CRB

Water, Sanitation & Hygiene (WASH)

A Decade of Strengthening Water Security

Over the past decade, the Coalition of Relief and Building (CRB) has worked to strengthen water and health security in target communities through emergency and development programs that ensure access to safe, clean water and improve hygiene and public health services, with special attention to the most vulnerable in areas affected by displacement and disasters.

186 Projects Implemented

774,210 Beneficiaries

102 Well Drilling & Rehabilitation Projects

10 Years of Giving

Projects by Program

- Emergency Water — 33%
  61 projects · 363,225 beneficiaries
- Sustainable Water — 67%
  125 projects · 410,985 beneficiaries

Inauguration of an elevated water tank

Emergency Water Projects

Safe water that saves lives and limits disease

CRB carried out emergency interventions that help save lives and curb the spread of disease by distributing clean, safe water and setting up emergency distribution points in displacement areas and camps, alongside hygiene awareness campaigns, hygiene kit distribution, water chlorination and training for community committees.

61 Projects | **363,225** Beneficiaries

	Projects	Beneficiaries
Water trucking	42	313,702
Fixed distribution points Safe drinking water	9	33,660
Hygiene kit distribution	3	12,600
Water tanks and latrines	7	3,264

Water supply project

Setting up distribution points

Hygiene kit distribution

Sustainable Water Projects

Long-term water and sanitation solutions

125 Projects | **410,985** Beneficiaries

Building and rehabilitating water sources and infrastructure for host communities and displaced people alike, strengthening community resilience and the sustainability of water resources.

	Projects	Beneficiaries
Drilling & rehabilitating artesian wells	17	197,085
Digging shallow (hand-dug) wells	85	158,100
Building elevated water tanks	13	48,800
Water network connections	5	6,120
Sewage networks	5	880

Drilling an artesian well

Solar-powered water system

Toward SDG 6: Clean Water and Sanitation

Safe, sustainable water for host and displaced communities.
